

Safety Management Systems (SMS): *How to Better Manage Known risks.*

Keith Johnson
Director of Safety
ALEA

Stan Rose
Director of Safety
HAI

The FAA is soon to require operators to implement a Safety Management System as part of their standard operating procedure. Join Keith Johnson, Safety Director for the Airborne Law Enforcement Association and Stan Rose, Director of Safety for HAI on September 10, 2010 at 1300 hours for steps of making this process as easy as possible. Also, they will be discussing current safety trends, collaboration with other organizations and using the free tools available to improve your organization and promote a safety culture.

The class will be held at the Sheraton Mahwah, NJ in conjunction with the ERHC's Annual Meeting 2010.

Seating will be limited for this incredibly important course, so RSVP now with Lauren at admin@erhc.org.
